EXPERIENCE

Summer Internship

Land O' Lakes Inc | May 2017 - Aug 2017

Worked with the desktop deployment team. Ensured accurate supply of new incoming computers as well as computers in storage. Assigned to analyze laptop deployment process and implement improvements. Ran deployments for the Headquarters for approximately 1-2 months. Deployed an average of 10-15 computers a week. Implemented a scheduling tool to decrease downtime between the computer arriving at the campus and being deployed to the employee.

Summer Internship

Eli Lilly and Company | May 2016 - Aug 2016

Created a custom website for a group of statistician researchers. The website was used to display contact information and case studies for third-party scientists to refer too. Created a custom static template using HTML, CSS, JavaScript, and Bootstrap. Once the template was approved, converted it into a WordPress template and ensured all plugins installed within WordPress were implemented.
